

Part one

General Information

Première partie
Information générale

Primera parte
Información general

Notes:

Part one provides general information for users of the present technical report on narcotic drugs. It consists of a section entitled "Introduction", a section entitled "Remarks on the statistical tables" and three indexes:

- (a) An English-French-Spanish index of names of countries and non-metropolitan territories;
- (b) An English-French-Spanish index of names of narcotic drugs.

The section entitled "Introduction" contains explanations on the purpose of the technical report and on the main modifications to the structure and content of the report made this year.

The section entitled "Remarks on the statistical tables" provides general clarifications on the statistical tables in parts two, four and five of the publication.

The indexes facilitate referencing, since countries, non-metropolitan territories and narcotic drugs are listed in the tables in English alphabetical order.

Notes:

La première partie contient des informations générales à l'intention des utilisateurs du présent rapport technique sur les stupéfiants. Elle comprend une section intitulée "Introduction", une section intitulée "Observations sur les tableaux statistiques" et trois index:

- a) Un index en anglais, français et espagnol des noms de pays et de territoires non métropolitains;
- b) Un index en anglais, français et espagnol des noms de stupéfiants.

La section intitulée "Introduction" contient des explications sur l'objet du rapport technique et sur les principales modifications ayant été apportées à la structure et au contenu du présent rapport.

La section intitulée "Observations sur les tableaux statistiques" apporte des précisions d'ordre général sur les tableaux statistiques qui figurent dans les deuxième, quatrième et cinquième parties de la publication.

Les index facilitent les références, étant donné que, dans les tableaux, les pays, les territoires non métropolitains et les stupéfiants sont indiqués dans l'ordre alphabétique anglais.

Notas:

La primera parte ofrece a quienes utilicen el presente informe técnico información general sobre los estupefacientes. Consta de una "Introducción", una sección titulada "Observaciones sobre los cuadros estadísticos" y tres índices:

- a) Un índice inglés-francés-español de los nombres de los países y los territorios no metropolitanos;
- b) Un índice inglés-francés-español de los nombres de los estupefacientes.

En la "Introducción" se explican la finalidad del informe técnico y las principales modificaciones introducidas en la estructura y el contenido del informe preparado este año.

La sección titulada "Observaciones sobre los cuadros estadísticos" contiene aclaraciones de carácter general sobre los cuadros estadísticos que figuran en las partes segunda, cuarta y quinta de la publicación.

Los índices facilitan la consulta, ya que los países, los territorios y los estupefacientes se enumeran en los cuadros siguiendo el orden alfabético inglés.

INTRODUCTION

1. *Narcotic Drugs: Estimated World Requirements for 2012; Statistics for 2010* is one of the three annual technical reports published by the International Narcotics Control Board this year.¹

2. The technical report on narcotic drugs is published in accordance with the provisions of article 15 (Reports of the Board) of the Single Convention on Narcotic Drugs of 1961, which stipulates that:

“1. The Board shall prepare an annual report on its work and such additional reports as it considers necessary containing also an analysis of the estimates and statistical information at its disposal, and, in appropriate cases, an account of the explanations, if any, given by or required of Governments, together with any observations and recommendations which the Board desires to make. These reports shall be submitted to the [Economic and Social] Council through the Commission, which may make such comments as it sees fit.

“2. The reports shall be communicated to the Parties and subsequently published by the Secretary-General. The Parties shall permit their unrestricted distribution.”

3. Furthermore, article 12 (Administration of the estimate system), paragraph 6, of the 1961 Convention stipulates that:

“In addition to the reports mentioned in article 15, the Board shall, at such times as it shall determine but at least annually, issue such information on the estimates as in its opinion will facilitate the carrying out of this Convention.”

4. The technical data on narcotic drugs are published for control purposes and to meet the needs of researchers, enterprises and the general public. They are based on information furnished by Governments to the Board in accordance with the relevant provisions of the 1961 Convention. The adherence by countries and territories to that Convention and the status of receipt of information (statistics and estimates) by the Board from their Governments are reflected in part two of this technical report.

5. The publication of estimates (part three of this technical report) is necessary, *inter alia*, in order to inform Governments of the limits within which international trade in and manufacture of narcotic drugs may be conducted during a given year. The publication of statistical data (part four of this technical report) provides information for analytical purposes, *inter alia*, on the availability and use of narcotic drugs in various countries and territories. The publication of estimates and statistics on production, manufacture, stocks and utilization of narcotic drugs is also intended to furnish producing and manufacturing countries with information on prospective trends, in order to encourage them to adjust their plans in a manner that will enable them to maintain a balance between supply and demand.

6. The preparation of estimates and statistics for submission to the Board requires the participation of several national administrative departments (health, police, customs, justice etc.), and the furnishing of coherent data is frequently a positive sign that good national control exists. The degree of effectiveness with which national authorities are operating can be assessed by analysing the information they furnish to the Board, for example by comparing their estimates and statistics for a particular year, as is done for all countries and territories in part five of this technical report.

Remarks on the statistical tables

7. The following general remarks refer to statistical tables contained in parts two, three, four and five of the present publication:

(a) The data appearing in the tables are those available to the Board as at 1 November 2011;

(b) Fractions of measurement units are not displayed in the quantities appearing for each country. However, fractions of a kilogram are accounted for in the total; the sums of those fractions, rounded to the nearest whole number, are then included in the total;

(c) In part four, with the exception of tables XIII.1 and XIV.1, fractions of a kilogram that are equal to or higher than 500 grams have been rounded up to the next kilogram; if fractions of a kilogram are smaller than 500 grams, they are rounded down. In table XIII.1, amounts are displayed to the milligram level and are not rounded up. In table XIV.1.a, tables XIV.1.b.i through XIV.1.b.vii and table XIV.1.c the symbol << is used in cases where countries or regions have reported consumption of narcotic drugs not reaching 1 S-DDD per million inhabitants per day;

¹The other two technical reports are: *Psychotropic Substances: Statistics for 2010; Assessments of Annual Medical and Scientific Requirements for Substances in Schedules II, III and IV of the Convention on Psychotropic Substances of 1971* (United Nations publication, Sales No. T.12.XI.3); and *Precursors and Chemicals Frequently Used in the Illicit Manufacture of Narcotic Drugs and Psychotropic Substances: Report of the International Narcotics Control Board for 2011 on the Implementation of Article 12 of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988* (United Nations publication, Sales No. E.12.XI.4).

(d) The totals appearing in the statistical tables represent the sum of only the figures furnished to the Board and do not necessarily represent complete world totals. For the reasons indicated in subparagraphs (b) and (c) above, the totals are sometimes higher or lower than the sums of the amounts;

(e) Decimal fractions: in part four of this publication, when decimal fractions appear in tables I-VII and XI (in the yields) or in table XIII.1 (where consumption data are expressed in grams), such fractions are separated from the whole numbers by a decimal point;

(f) In tables III-VII of part four, the manufacturing yields vary from one year to another, sometimes to a considerable degree, because of the fact that the manufacturing process extends from one year to another. Manufacture may take place at the beginning of a year

on the basis of raw materials that were in use at the end of the preceding year. An average relating to several successive years gives a clearer indication of actual yields. Certain yields, however, necessitate investigation by the Board;

(g) A question mark "?" signifies that the statistical data were not received by 1 November 2011. The sign "—" signifies "nil". (In table B of part three however, the sign "=" signifies "nil" or an amount less than the unit of measurement in question.) The sign "<<" signifies that the value is smaller than half of the unit of measurement in the table in question but not "nil". Two dots (..) signify that a statistical report was furnished but data were not submitted for the item in question;

(h) Countries and non-metropolitan territories are listed in English alphabetical order. The names of non-metropolitan territories are shown in italics.
