Note: Controls apply to:

- all the agents and substances given in the list, under whichever brand names or synonyms they appear;
- the isomers, unless specifically excepted, of the drugs in this list whenever the existence of such isomers is possible within the specific chemical designation;
- the esters and ethers of the drugs in this list;
- the salts of all the drugs in this list, where the existence of such salts is possible;
- all mixtures comprising drugs from this list, irrespective of the amount thereof.

List of narcotic drugs, the trafficking of which is prohibited in the Republic of Uzbekistan (List II):

1. Alfentanil
2. p-Aminopropiophenone (PAPP) and its optical isomers (antidote to cyanides)
3. Amobarbital
4. Amfepramone
5. Amphetamine and combined medicinal preparations containing Phenamine (amphetamine)
6. Buprenorphine
7. Butorphanol
8. Glutethimide
9. Dextromoramide
10. Dextropropoxyphene
11. Dihydrocodeine
12. Diphenoxylate
13. Codeine
14. Codeine phosphate
15. Cocaine

	<p>16. Cocaine hydrochloride 17. Codeine-N-oxide 18. Levamfetamine 19. Morphine 20. Morphine hydrochloride 21. Morphine sulphate 22. Morphilongum 23. Omnopon 24. Pentazocine 25. Piritramide 26. Propiram 27. Prosidol 28. Properidine 29. Preparations of Acetyldihydrocodeine, Dihydrocodeine, Codeine, Nicodicodine, Nicocodeine, Norcodeine, Pholcodine and Ethylmorphine when compounded with one or more other ingredients and containing not more than 100 milligrams of the drug per dosage unit and with a concentration of not more than 2.5 per cent in undivided preparations. 30. Preparations of Propiram containing not more than 100 milligrams of Propiram per dosage unit and compounded with at least the same amount of methylcellulose. 31. Preparations of Dextropropoxyphene for oral use containing not more than 135 milligrams of Dextropropoxyphene base per dosage unit or with a concentration of not more than 2.5 per cent in undivided preparations, provided that such preparations do not contain any substance controlled under the 1971 Convention on Psychotropic Substances. 32. Preparations of Cocaine containing not more than 0.1 per cent of Cocaine calculated as Cocaine base, and preparations of Opium and Morphine containing not more than 0.2 per cent of Morphine calculated as Anhydrous morphine base and compounded with one or more other ingredients and in such a way that the drug cannot be recovered by readily applicable means or in a yield which would constitute a risk to public health. 33. Preparations of Difenoxin containing, per dosage unit, not more than 0.5 milligram of Difenoxin and a quantity of Atropine sulfate equivalent to at least 5 per cent of the dose of Difenoxin. 34. Preparations of Diphenoxylate containing, per dosage unit, not more than 2.5 milligrams of Diphenoxylate calculated as base and a quantity of Atropine sulfate equivalent to at least 1 per cent of the dose of Diphenoxylate. 35. Preparations: Pulvis ipecacuanhae et opii compositus 10 per cent Opium in powder 10 per cent ipecacuanha root, in powder well mixed with 80 per cent of any other powdered ingredient containing no drug.</p>
--	---

36. Preparations conforming to any of the formulas listed in this List and mixtures of such preparations with any material which contains no drug.
37. Reasec
38. Remifentanil
39. Tilidine suppositories in various dosages
40. Sombrevin
41. Sufentanil
42. Alnagon tablets (Codeine phosphate 20 mg, Caffeine 80 mg, Phenobarbital 20 mg, Acetylsalicylic acid 20 mg).
43. Tablets (Codeine camphosulfonate 0.025 g, Sulfogaiacol 0.1 g, Grindelia soft extract 0.017 g)
44. Tablets of Codeine 0.03 g + Paracetamol 0.5 g
45. Tablets of Codeine phosphate 0.015 g + Sugar 0.25 g
46. Tablets of Codeine 0.01 g, 0.015 g + Sugar 0.25 g
47. Tablets of Codeine 0.015 g + Sodium hydrocarbonate 0.25 g
48. Tablets of Codterpin (Codeine 0.015 g + Sodium hydrocarbonate 0.25 g + Terpin hydrate 0.25 g)
49. Antitussive tablets. Composition: powdered Thermopsis 0.01 g (0.02 g), Codeine 0.02 g (0.01 g), Sodium hydrocarbonate 0.2 g, powdered Liquorice root 0.2 g.
50. Thebaine
51. Tilidine
52. Trimeperidine
53. Fentanyl
54. Phenmetrazine
55. Zipeprol
56. Ethylmorphine
57. Escodolum
58. Aestocin
59. Aestocin hydrochloride
60. Ethylmorphine hydrochloride
61. Ethaminal sodium

Note: Controls apply to:

- all the agents and substances given in the list, under whichever brand names or synonyms they appear;
- the isomers, unless specifically excepted, of the drugs in this list whenever the existence of such isomers is possible within the specific chemical designation;
- the esters and ethers of the drugs in this list;
- the salts of all the drugs in this list, where the existence of such salts is possible;

Paragraph 6 is set out in point 1(b) of Appendix No. 2 to Decision No. 315 of 16.07.2003 of the Cabinet of Ministers of the Republic of Uzbekistan (see previous versions)
