Dear Sirs,

REF YOUR LETTER NO.:E/INCB/PSY/C.L.8/2005 DATED 10/2/05

**Patients leaving the country carrying medical preparations containing controlled substances for personal use:-**

The treating physician should present a prescription for such products accompanied by a medical report identifying the case and condition being treated. This report has to be authenticated by the medical commission in the Ministry of Health.

Upon presenting such documents the Pharmacy & Drug Control Directorate issue a "To Whom It May Concern" letter permitting the transfer of such products through the country customs and for the destination concerned authorities.

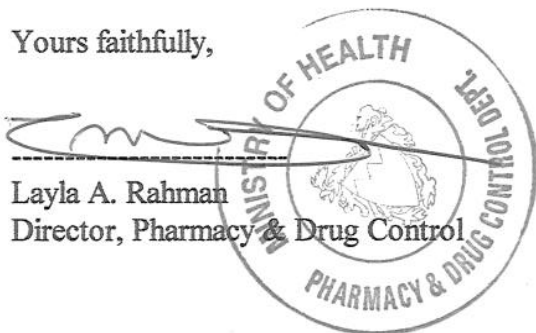

**For patients entering the country carrying medical preparations containing controlled substances for personal use:-**

The custom directorate, if presented with or being able to trace the products, would send such items to the Pharmacy & Drug Control Directorate. The traveler has to present himself to the Directorate with proper identification documents, medical reports from his country authenticated by health authorities. The quantities will be dispensed to him on monthly basis (or weekly basis depending on kind of narcotics).

This will be checked against the dosage identified in the report.

Yours faithfully,

Layla A. Rahman  
Director, Pharmacy & Drug Control
