

## Annex III

### Seizures of substances in Tables I and II of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988, as reported to the International Narcotics Control Board, 2015–2019

1. Tables A and B below show information on seizures of the substances included in Tables I and II of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988, furnished to the International Narcotics Control Board by Governments in accordance with article 12, paragraph 12, of the Convention.
2. The tables include data on domestic seizures and on seizures effected at points of entry or exit. They do not include reported seizures of substances where it is known that the substances were not intended for the illicit manufacture of drugs (for example, seizures effected on administrative grounds or seizures of ephedrine/pseudoephedrine preparations to be used as stimulants). Stopped shipments are also not included. The information may include data submitted by Governments through means other than form D; in such cases, the sources are duly noted.

#### Units of measure and conversion factors

3. Units of measure are indicated for every substance. As fractions of full units are not listed in the tables, figures are rounded as necessary.
4. For a variety of reasons, individual quantities of some substances seized are reported to the Board using different units; for instance, one country may report seizures of acetic anhydride in litres, another in kilograms.
5. To enable a proper comparison of collected information, it is important that all data be collated in a standard format. To simplify the necessary standardization process, figures are given in grams or kilograms where the substance is a solid and in litres where the substance (or its most common form) is a liquid.
6. Seizures of solids reported to the Board in litres have not been converted into kilograms and are not included in the tables, as the actual quantity of substance in solution is not known.
7. For seizures of liquids, quantities reported in kilograms have been converted into litres using the following factors:

<i>Substance</i>	<i>Conversion factor (kilograms to litres)<sup>a</sup></i>
Acetic anhydride	0.926
Acetone	1.269
Ethyl ether	1.408
Hydrochloric acid (39.1% solution)	0.833
Isosafrole	0.892
3,4-Methylenedioxymethamphetamine	0.833
Methyl ethyl ketone	1.242
1-Phenyl-2-propanone	0.985
Piperidine	1.160
Safrole	0.912
Sulphuric acid (concentrated solution)	0.543
Toluene	1.155

<sup>a</sup>Derived from density; see Merck, The Merck Index (Rahway, New Jersey, 1989).

8. As an example, to convert 1,000 kilograms of methyl ethyl ketone into litres, multiply by 1.242, i.e.  $1,000 \times 1.242 = 1,242$  litres.
9. For the conversion of gallons to litres, it has been assumed that in Colombia the United States gallon is used, with 3.785 litres to the gallon, and in Myanmar the imperial gallon is used, with 4.546 litres to the gallon.
10. If reported quantities have been converted, the converted figures are listed in the tables in italics.
11. The names of territories appear in italics.
12. A dash (–) signifies that the report did not include data on seizures of the particular substance in the reporting year.
13. A slashed degree symbol ( $\emptyset$ ) signifies less than the smallest unit of measurement shown for that substance (for example, less than 1 kilogram).
14. Discrepancies may exist between the regional total seizure figures and the world total figures because the actual quantities seized were rounded to whole numbers.

Table A. Seizures of substances in Table I of the 1988 Convention as reported to the International Narcotics Control Board, 2015–2019

<i>Country or territory</i>	<i>Year</i>	<i>Acetic anhydride (litres)</i>	<i>N-Acetylanthranilic acid (kilograms)</i>	<i>4-Anilino-N-phenethylpiperidine (ANPP)<sup>a</sup> (kilograms)</i>	<i>Ephedrine (kilograms)</i>	<i>Ephedrine preparations<sup>b</sup> (kilograms)</i>	<i>Ergometrine (grams)</i>	<i>Ergotamine (grams)</i>	<i>Isosafrole (litres)</i>	<i>Lysergic acid (grams)</i>	<i>3,4-Methylenedioxypheyl-2-propanone (litres)</i>	<i>3,4-MDP-2-P methyl glycidic acid<sup>c</sup> (kilograms)</i>	<i>3,4-MDP-2-P methyl glycide<sup>c</sup> (kilograms)</i>	<i>Norephedrine (Phenylpropanolamine) (kilograms)</i>	<i>N-Phenethyl-4-piperidone (NPP)<sup>a</sup> (kilograms)</i>	<i>Phenylacetic acid (kilograms)</i>	<i>alpha-Phenylacetoacetamide (APAA)<sup>c</sup> (kilograms)</i>	<i>alpha-Phenylacetoacetonitrile (APAAN)<sup>c</sup> (kilograms)</i>	<i>1-Phenyl-2-propanone (litres)</i>	<i>Piperonal (kilograms)</i>	<i>Potassium permanganate (kilograms)</i>	<i>Pseudoephedrine (kilograms)</i>	<i>Pseudoephedrine preparations (kilograms)<sup>b</sup></i>	<i>Safrole (litres)</i>

<sup>a</sup>Included in Table I of the 1988 Convention, effective 18 October 2017.

<sup>b</sup>Seizures of ephedrine and pseudoephedrine reported to the Board in consumption units (such as tablets and doses) have not been converted into kilograms, as the actual quantity of ephedrine and pseudoephedrine is not known. The following countries and territories listed in the table below have reported seizures of preparations containing ephedrine and/or pseudoephedrine quantified in terms of consumption units.

*Seizures of ephedrine and pseudoephedrine reported to the Board in consumption units, 2015–2019*

<i>Country</i>	<i>Year</i>	<i>Ephedrine preparations (units)</i>	<i>Pseudoephedrine preparations (units)</i>
Canada	2015	30 433	907
	2016	9 757 657	45

Norway	2019	2 146	143
Portugal	2016	–	2
Republic of Moldova	2015	–	60
	2016	–	60
Sweden	2016	6 363	–
	2019	387	–
Ukraine	2019	183	5 454
United Kingdom <sup>f</sup>	2016	2 350	–

<sup>c</sup>Included in Table I of the 1988 Convention, effective 19 November 2019.

<sup>d</sup>For statistical purposes, the data for China do not include those for Hong Kong, China, or Macao, China.

<sup>e</sup>Since 17 May 2016, “Czechia” has replaced “Czech Republic” as the short name used in the United Nations.

<sup>f</sup>The United Kingdom has left the European Union and is in a transition period until the end of 2020.
